- 
- Page 6 • Is the Tasmanian health system all it should be, or should we be open to change in order to improve outcomes for all Tasmanians regardless of where they live?

Response:

YOU SHOULD ALWAYS LOOK FOR  
BETTER OUTCOMES FOR PATIENT.

- Page 16 • How would you find out about what travel support, information and services are available to you to get the right care, by the right person, the first time?

Response:

THIS IS THE MAIN PROBLEM.  
ACCESS FROM HOME - TO - HOSPITAL FOR AGED  
AND DISABLED IS VERY POOR AND EXPENSIVE

- Page 16 • If you are already a user of these services, are they sufficient?

Response:

YES, I WOULD USE THEM IF I COULD  
AFFORD THEM. \$50 EACH WAY W/ MY CAR TO HAT ROB.  
VIA RED CROSS? ? MUCH TOO EXPENSIVE!

- Page 17 • If it improves the quality and safety of care, do you agree we should limit the number of sites at which some services are provided?

Response:

YES.  
AS STATED ABOVE, THE INFRASTRUCTURE MUST  
BE IMPROVED

- Page 17 • If yes, what should we consider in deciding where a service is located and what support needs to be considered to ensure patients have equitable access?

Response:

AS ABOVE.
